Comment utiliser

Attention:

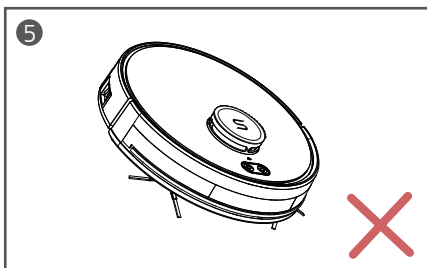

1. Veuillez retirer le réservoir d'eau lors du chargement pour éviter tout danger.
2. Le nettoyage ne convient pas aux tapis. Lors du nettoyage, enveloppez les bords du tapis ou utilisez une bande isolante.
3. Si le robot présente une anomalie, essayez d'éteindre l'interrupteur d'alimentation situé sur le côté droit du robot pour redémarrer le robot lorsqu'il n'est pas en charge.

- ① Ouvrez le bouchon du réservoir d'eau, et verser lentement l'eau dedans.
- ② Fermez le bouchon du réservoir d'eau, coller la toile de nettoyage à velcro sur le fond de la cuve.

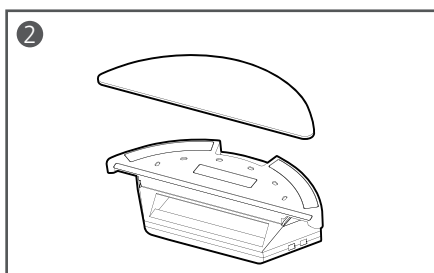

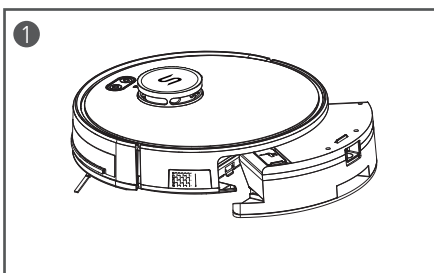

- ③ Appuyez sur le bouton à l'arrière du robot pour sortir la boîte de poussière et installer le réservoir d'eau.
- ④ Appuyez le bouton  sur la télécommande ou sur l'application.

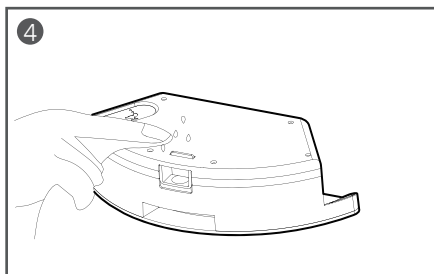

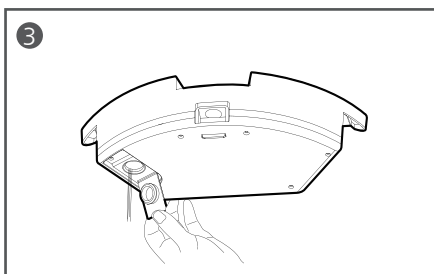

- ⑤ Lorsque vous utilisez le réservoir d'eau, n'inclinez pas le S6 pour ne pas l'endommager.

Entretien du réservoir d'eau

- ① Retirez le réservoir d'eau: appuyez sur le bouton à l'arrière du robot pour enlever le réservoir d'eau.
- ② Retirez le chiffon de nettoyage, rincer et sécher.

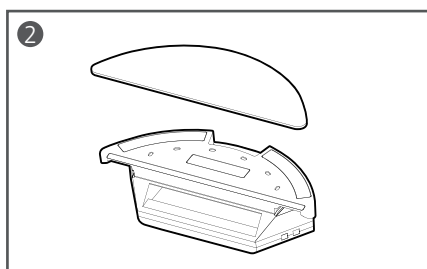

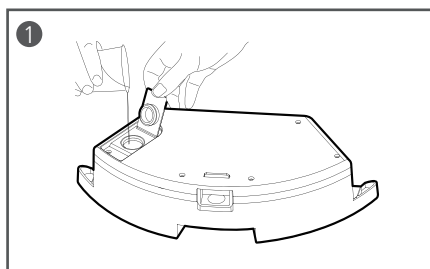

- ③ Videz l'eau restante dans le réservoir d'eau.
- ④ Séchez le réservoir d'eau.

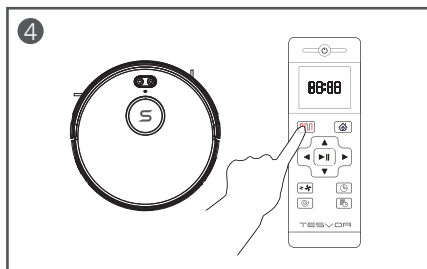

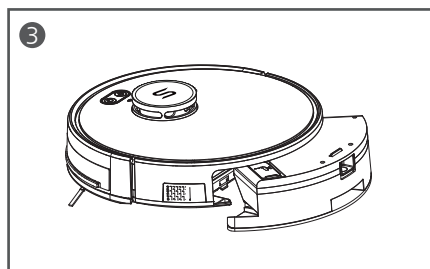

Utilizzo

Nota:

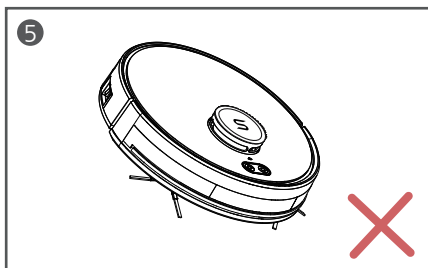

1. Si prega di rimuovere il serbatoio dell'acqua durante la ricarica per evitare danni.
2. Il panno non è adatto per i tappeti. Quando si lavano i pavimenti, si prega di arrotolare i bordi dei tappeti o utilizzare le strisce magnetiche per isolare i tappeti.
3. In caso di anomalie, provare a spegnere l'interruttore di alimentazione sul lato destro del robot per riavviarlo quando non è in carica.

- ① Aprire il tappo di chiusura del serbatoio dell'acqua e versarvi lentamente dell'acqua.
- ② Chiudere il tappo del serbatoio dell'acqua, attaccare il panno di pulizia sul fondo del serbatoio.

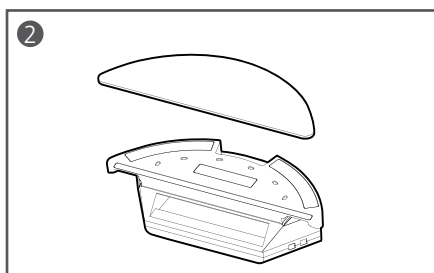

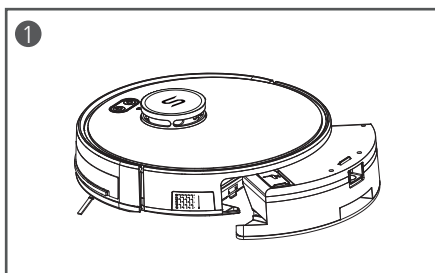

- ③ Premere il pulsante nella parte posteriore del robot per estrarre la scatola della polvere e installare il serbatoio dell'acqua.
- ④ Premere  sul telecomando o Smart Clean sull'app.

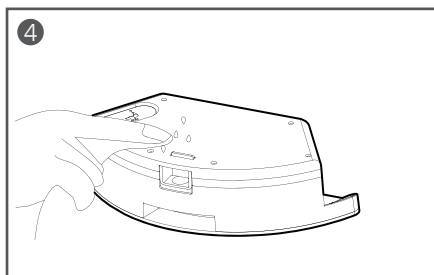

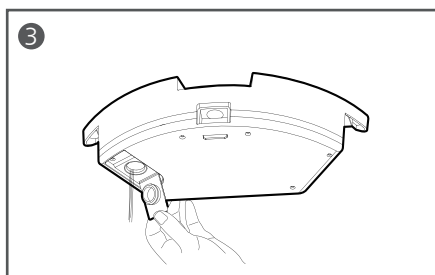

- 5 Quando viene utilizzato il serbatoio d'acqua, prestare attenzione a non ribaltare o muovere il robot S6 per evitare di danneggiarlo con l'acqua.

Manutenzione del Serbatoio

- 1 Rimuovere il serbatoio dell'acqua: premere il pulsante nella parte posteriore del robot per rimuovere il serbatoio dell'acqua.
2 Rimuovere il panno per la pulizia, sciacquarlo e asciugarlo.

- 3 Scaricare l'acqua rimanente nel serbatoio dell'acqua.
4 Asciugare il serbatoio dell'acqua.
